

## Please ~~Don't~~ Trash Our Land, Seas, or APCs!

The Bureau of Environmental and Coastal Quality works hard in partnership with other agencies, businesses, and the CNMI community at large to help protect the natural resources of the CNMI. Shoreline areas in CNMI are regulated as “Areas of Particular Concern” by the Division of Coastal Resources Management (DCRM) in part because these areas are especially prone to heavy use and sensitive to negative impacts. Together we can protect these spaces to keep them – and the whole island – clean, healthy, and beautiful!

Did you know that leaving trash in the environment harms plants and animals, and looks ugly? Littering is also *against the law*. You can report littering using the Reef Report Application, available on the publications page of the DCRM website: [crm.gov.mp/](http://crm.gov.mp/) You can also call litter control officers at 664-8500 or DCRM Enforcement at 588-2926. Some of this trash comes from land, and some washes up from the sea. Regardless of the source, please help keep our islands beautiful by picking up trash and disposing of it properly.
