Public Notice

From the COMMONWEALTH OF THE NORTHERN MARIANA ISLANDS
COASTAL MANAGEMENT PROGRAM
of the DIVISION OF COASTAL RESOURCES MANAGEMENT

DATE: July 8, 2021

NOTICE: The Bureau of Environmental and Coastal Quality (BECQ) Division of Coastal Resources Management (DCRM) is currently reviewing a federal consistency determination from the Environmental Protection Agency (EPA) regarding the proposed issuance of the 2022 NPDES construction general permit (CGP) for stormwater discharges from construction activity disturbing one or more acres, which will replace the existing CGP issued in February 2017.

Information about the determination can be accessed via the DCRM website at:

<https://dcrm.gov.mp/wp-content/uploads/crm/EPA-NPDES-CGP-Determination-6.14.2021.pdf>

Federal consistency is a provision of the Coastal Zone Management Act (CZMA) that requires federal actions that affect the coastal zone to be consistent to the maximum extent practicable with the enforceable policies of a coastal state's federally approved coastal management plan.

Comments on whether the project is consistent with the enforceable policies of the CNMI's coastal management program can be submitted to the Division of Coastal Resources Management at fedcon@dcrm.gov.mp.

This public notice has been published for compliance with 15 CFR § 930.42. DCRM is soliciting public comments for fifteen (15) days, starting on July 8, 2021 and ending on July 23, 2021. We welcome your feedback and thank you for your consideration.
