PLASTIC FREE MARIANAS

Plastic Free Marianas (PFM) is a behavior change initiative by the Division of Coastal Resources Management that encourages individuals, schools, and businesses to reduce consumption of single-use plastic products in hopes to lessen the amount of plastic that enters our ocean and landfill every year.

By signing up, you become a **Plastic Free Partner (PFP)** in which you agree to reduce single-use plastic products in your establishment by adopting best management practices such as, but not limited to, skipping the plastic straw, providing paper bags over plastic bags, choosing compostable take-out containers, and/or offering discounts to customers who provide their own reusable products.

Whether you make a small or large-scale commitment, DCRM will help you in your sustainable journey by providing tools, resources, and trainings for adopting a zero-waste lifestyle. DCRM can also conduct a "plastic audit" in your establishment or school to pinpoint where you can eliminate single-use plastic and help you find the proper alternatives.
