BECQ Public Permitting App

How-To Guide

For more information, please contact our Permitting Manager at ErinDerrington@becq.gov.mp

Planning to clear or develop coastal land?
Want to find out what's on your property?
Need to know what regulations may apply?

Visit http://arcg.is/2mtiZDk !

Note: The screenshots in this guide may look slightly different as new data is added.

App Features:

- Coastal permitting-related geospatial information
- "Before You Build" guide
- Permit report printer
- Search by parcel number

## Coastal permitting information

A: Click here to view all available data layers. Check/uncheck the boxes to show/hide layers on the map.
**B**: Click on features in the map to see what they are, as well as any relevant regulations or resources provided.

"Before You Build" guide

Permit report printer

Search by parcel number

C: Click on the "i" icon and scroll through the guide to find out regulatory information.

D/E: Click on the print icon to create a report of the current map area. Set the print quality to a higher DPI for better printing results.

F: If you know the Lot ID of your property, type it in the search bar and hit "Enter" to explore what permitting considerations may be present on your land.
